

## Visitation Series

## InteleStation® Series

You've made the decision to implement non-contact visitation to streamline the processing of inmate and visitor contact. Now you need to consider how to protect your investment in the expensive video and voice communications equipment\* that will be installed in your facility. Norix offers the most complete range of secure cabinets designed, engineered and constructed specifically for non-contact visitation.

### Heavy Duty Laminate

Laminate InteleStation® cabinets are constructed from heavy-duty 45 lb. density particle board sandwiched between .050" thick heavy duty high-pressure laminate. Select either an enclosed cabinet with  $\frac{3}{8}$ " polycarbonate protective view screen (pictured below), or "open style" cabinet suitable for surface mounting your electronic equipment or telephones.

\*Choose wall-mount or floor mount units, with or without attached seats.

All structural connections are steel-to-steel; tamper-resistant Torx® head fasteners.

\*Electronic A/V or telecommunications components not included.

## Stainless Steel

The same configuration options offered in the laminate versions are also available in 12 gauge stainless steel cabinetry. Top section and minimized writing surface are sloped to discourage placement of drinks cups.

## Econo-Box Version

For the most cost-effective solution, choose our Econo-Box wall-mounted unit. Includes  $\frac{3}{8}$ " polycarbonate protective view screen. Available in either stainless steel or black powder coated steel. Choose standard wall-mount unit, or model with attached seat.

## PhoneStation Kiosk

Four-position Phone Stations are available with or without attached seating. The table, telephone mounting and access plates are stainless steel. Divider panels are constructed of heavy-duty laminate. Bolts securely to floor – center cylinder leg encapsulates wiring.

# Stainless Steel InteleStation®

## Enclosed Cabinet

With protective polycarbonate view screen.

## Wall Mount

Base units and add-on modules for indefinitely "ganging" units side to side. Available with or without fixed seating.

## Floor Mount

In single seat version or with add-on modules for "ganging" units. Seats required on one-directional floor-mount units.

Features detention-grade, 12 gauge stainless steel cabinetry. Top section and minimized writing surface are sloped to discourage placement of drink cups. Optional fixed seats are mounted to a mounting plate welded to 3" diameter, 14 gauge steel legs that bolt securely to the floor. Choose stainless steel or compression-molded composite seats in a variety of colors.

## Open Style

Suitable for surface mounting or telecom equipment

## Floor Mount Back to Back

Base units and add-on modules for "ganging" units side to side. Available with or without fixed seating.

Norix Integra chair recommended for use with units without fixed seats (sold separately)

# Heavy-Duty Laminate InteleStation®

## Enclosed Cabinet

With protective polycarbonate view screen.

## Wall Mount

Available in one, two or three compartment configurations. Available with or without fixed seating.

## Floor Mount

Available in one, two or three compartment configurations. Available with or without fixed seating.

Proven successful in correctional institutions nationwide. Cabinets are constructed from heavy-duty 45 lb. density particle board sandwiched between .050" thick heavy duty high-pressure laminate. Panels connect with internal barrel bolts. Optional fixed seats are mounted to a mounting plate welded to 3" diameter, 14 gauge steel legs that bolt securely to the floor. Choose stainless steel or compression-molded composite seats in a variety of colors.

## Open Style

Suitable for surface mounting or telecom equipment

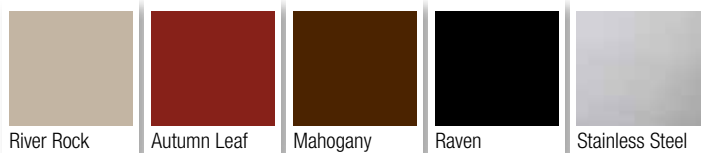

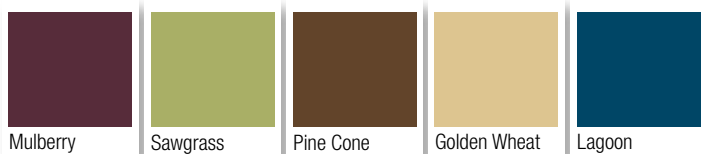

## Floor Mount Back to Back

Available in two, four or six compartment configurations. Available with or without fixed seating.

Privacy Cubicles available in two widths – 36" and 60". Curved side panels provide line-of-sight supervision. Choose adjustable floor glides or bolt-down option.
